

Innovation since 1889

TWIN SWEEP 1150E The Superior up to 16.000 m² excellent maneuverability,

> The newest innovation of a ride-on sweeper: high-performance and a modern design. Warehouses, commercial spaces, parking lots and industry areas, the robust and very agile Twin Sweep 1150E is the ideal choice, available in different options! Whilst all share the same strong sweeping performance of the twin-roller system, the Pro-version offers folding-out side brushes, comfort seating and steering.

Twin roller system

FACTS AND FIGURES

THE DETAILS

The compact ride-on suction sweeper is designed for professional applications. Its impressive maneuverability and sweeping performance results in efficient cleaning of large spaces. Sweeping in narrow aisles is easy with the Twin Sweep 1150E. The integrated foldable side brooms increase the sweeping width when needed and make sweeping in corners and under racks an easy task. The extra-large wheels ensure an excellent maneuverability and easy drive over humps. The TRS sweeping system patented by Stolzenberg in combination with a superior dust control and filter performance effortlessly removes all kinds of debris, sand and dust.

THE BENEFITS

- Two side brushes folding out
- Large front wheels
- Forward traction
- Center brush drive
- Electric filter shaker
- Electric suction
- High battery specs
- On-board charger
- Hour meter and charging light indication
- Discharge protection
- Front LED lights
- Strong motors
- Extra large hopper
